

overview

multi-media

einteract produces user friendly and highly functional multimedia **CD-ROM, DVD, online/web delivery** and **e-learning resources** that combine Flash animation, video, imagery, sound FX and music to convey your message.

Our focus is on ease of use and high interaction for optimal impact with your audience

- Auto run & full screen
- Mac and PC compatible
- User interface and navigation
- Combination of media (video, audio, imagery etc)
- Fun activities
- Links to documents, images or www
- Feedback forms - yes from a CD!

What's possible?

Applications for multi-media

Sales/Promotions and Showcase CD/DVD – Give any product, company, event an edge over the competition!

Press Release Kits – Give journalists a hassle free experience and you are more likely to get a favourable review

Conference CDs – Showcase your organisation and provide useful information such as papers, presentations & profiles

Enhanced Brochure - Why have static printed materials when you can include video, animation, voice over & virtual tours?

Information Packs – Compile information for users and present in a professional, easy to use and attractive pack

Safety Inductions and other e-learning tools – What better way to present OHS issues and give users an opportunity to reflect their knowledge, whilst fulfilling compliance responsibilities!

testimonials

“ Bakers Delight were looking for an e-learning resource that would engage and excite our learners. By continually pushing the boundaries e-interact surpassed our expectations with the end result.

**Craig King, Group HR & Training Manager,
Bakers Delight Holdings Ltd**

“ e-interact have produced some highly functional and exciting material for our discerning audience. We have always found e-interact to provide fast, efficient and friendly service and understand our specific needs.

Shayna Welsh, PR, Honda Australia
